

SCHOOL OPERATIONS AND STUDENT SERVICES

One portal for every school procedure

Requests, approvals, meetings, letters, counseling, university guidance and safeguarding in one place, in Arabic and English, for students, families and staff.

- ✓ Arabic and English, right to left
- ✓ Safeguarding by design
- ✓ UAE data protection ready

Student services today run on scattered tools

Scattered tools

Email threads, WhatsApp groups, shared drives and separate portals. Nobody sees the whole picture of a student.

Paper requests

Letters, absence notes and subject changes travel on paper and signatures. Families chase the office for updates.

Safeguarding risk

Concerns are shared by email or in the staff room. Access is not controlled, decisions are not recorded, views are not audited.

University guidance in spreadsheets

Entry requirements live in counselors' spreadsheets and go out of date the day an admissions page changes.

The result: slow service for families, bottlenecks leaders cannot see, and real risk for children when a concern goes to the wrong inbox.

WHAT HORIZON IS

One calm place for every request, case and conversation

Each role has its own portal and sees only what it is allowed to see. The school, not a vendor, configures its services, forms, approval routes and letters.

Services and approvals

Cases and safeguarding

Meetings and calendar

Letters and documents

Career and university pathways

Subjects, timetable and grades

Five everyday journeys, fully connected

Career guidance

- 1 Aptitude assessment
- 2 Choose a matched career
- 3 Book the career advisor
- 4 Plan the family can see

Teacher referral

- 1 Refer in two minutes
- 2 Counselor opens a case
- 3 Parent meeting booked
- 4 Action plan and follow-up

Official letters

- 1 Parent requests a letter
- 2 Registrar signs off
- 3 Bilingual PDF generated
- 4 Family downloads it

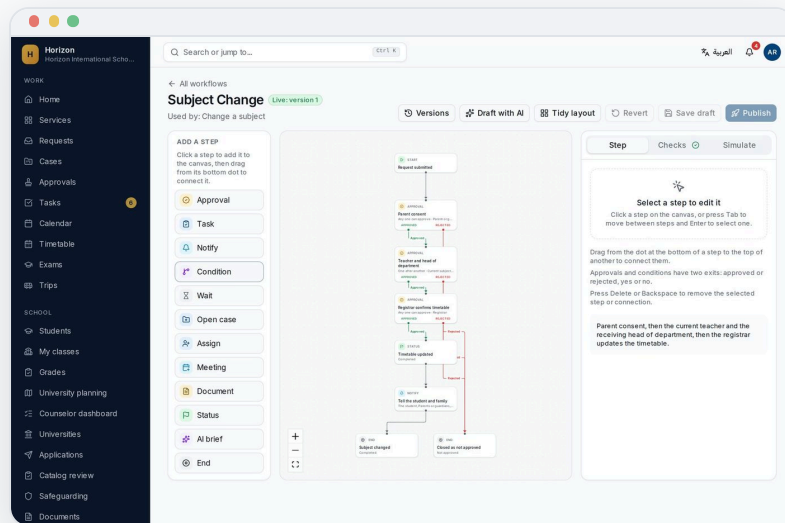

Subject change

- 1 Parent asks to switch
- 2 Subject teacher's view
- 3 Head of department
- 4 Timetable updated

Parent meetings

- 1 Pick child and teacher
- 2 Choose an open slot
- 3 Invite and reminders
- 4 Notes and next steps

For the people who run the school

AR Aisha Rahman
School Administrator

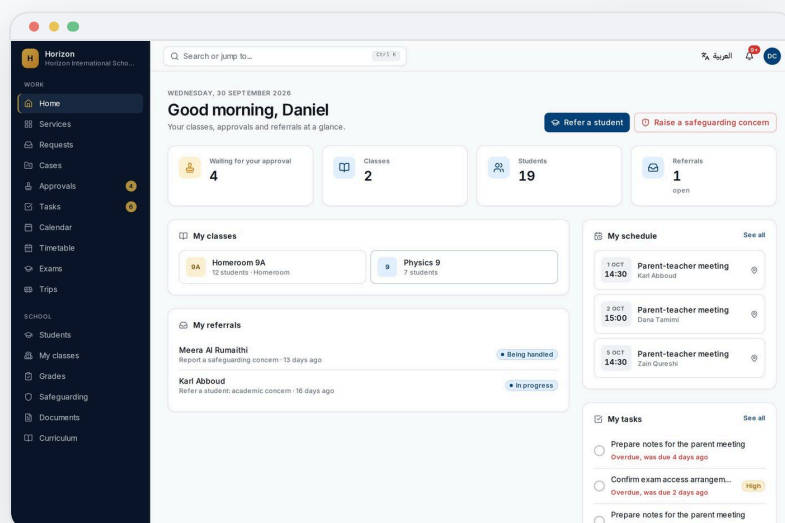

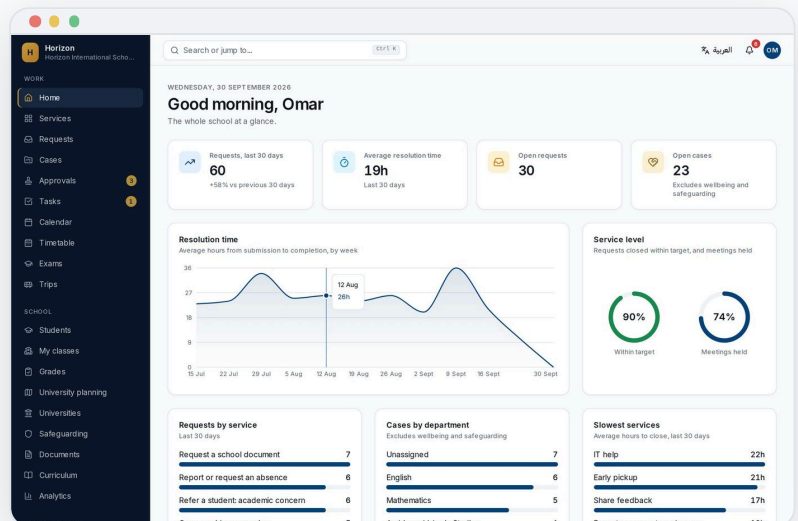

The school configures it. No vendor coding.

- ✓ Visual workflow builder with approvals, tasks, waits and notifications. Validate and simulate before publishing.
- ✓ Drag-and-drop form builder: 21 field types, conditional logic, Arabic and English labels, versioned publishing.
- ✓ Bilingual letter templates with a live PDF preview.
- ✓ Roles in plain language, an access check per person and a full audit log.

OM Omar Al Mansoori
Principal

The whole school at a glance.

- ✓ Requests, resolution time, open requests and open cases against the previous period.
- ✓ Service levels and the slowest services, so bottlenecks become visible.
- ✓ Ask questions in plain language, answered over aggregate figures.
- ✓ Wellbeing and safeguarding cases are excluded from every figure.

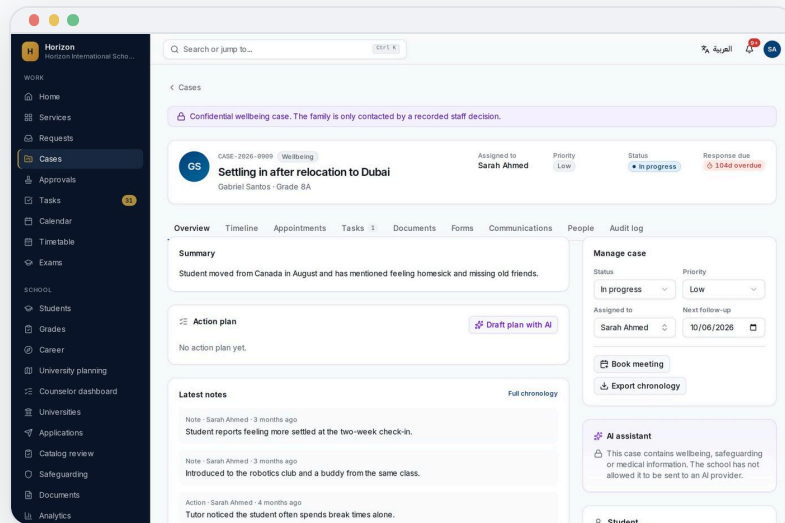

DC Daniel Carter
Teacher

Refer, approve and grade in a few taps.

- ✓ Refer a student or raise a safeguarding concern straight from Home.
- ✓ Approvals such as subject changes arrive as steps in the workflow.
- ✓ Spreadsheet-style gradebook with autosave and Excel paste; families see only published grades.
- ✓ Parent meetings booked against his real availability.

For the people who support students

SA Sarah Ahmed
Counselor

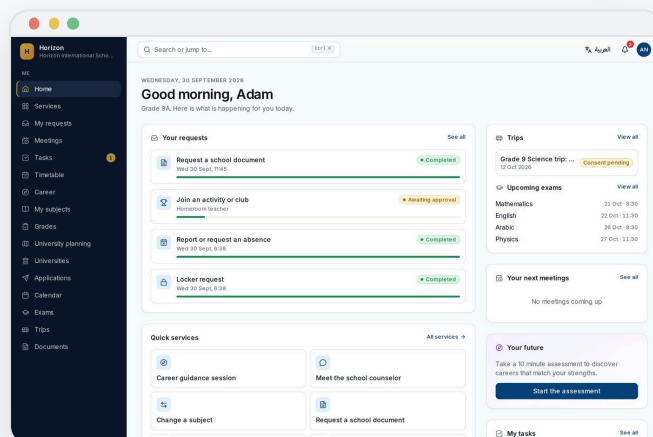

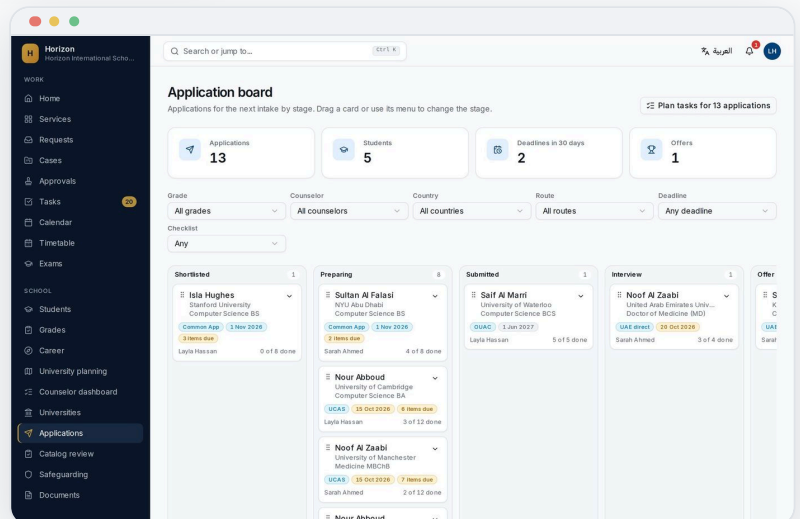

A caseload, not an inbox.

- ✓ Teacher referrals arrive as cases with priorities and response timers.
- ✓ Notes are versioned: amended with a reason, never silently edited or deleted.
- ✓ Meetings with the family invited; follow-ups land on her calendar.
- ✓ AI drafts briefs and action plans for her approval, and is blocked on wellbeing data unless the school allows it.

LH Layla Hassan
Career Advisor

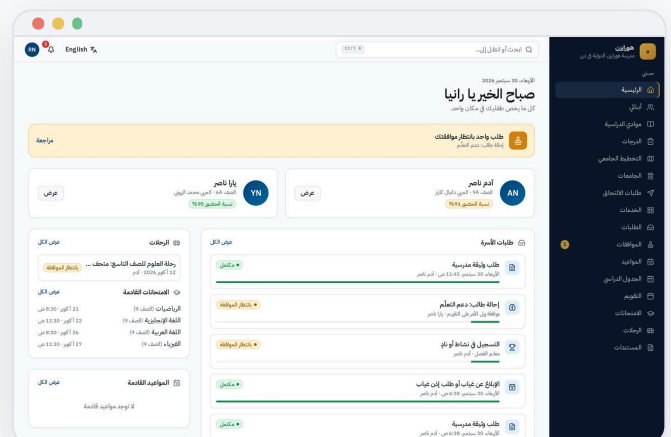

Every application and deadline on one board.

- ✓ Aptitude assessment and career matches for students.
- ✓ Applications by stage with the next deadline and checklist progress on each card.
- ✓ Recommendation letter requests to teachers and deadline-aware task plans.
- ✓ Requirement changes arrive with the before, the after and the affected students.

AN Adam Nasser
Student, Grade 9

Requests with step-by-step status, meetings, tasks, exams, the career assessment and his university plan.

RN Rania Nasser
Parent of Adam and Yara, in Arabic

Both children in one account: approvals, letters, meetings, trips and exams. Joined with the school's family code.

Safeguarding and privacy, enforced by the system

The rules that matter are built into the product, not left to good intentions.

KY **Khalid Yousef**
Designated Safeguarding Lead

- ✓ Any staff member raises a concern in one click. The referrer only sees "Received" and "Being handled".
- ✓ A restricted queue for the DSL, the deputy and explicitly granted staff.
- ✓ Telling the family is a recorded decision: notify, defer or do not notify, always with a reason.
- ✓ Timestamped chronology, external agency referrals, export by the DSL only, break-glass access with a written reason.

Parent notification
Never automatic. Record each decision and the reason.

Notify parents **Defer** **Do not notify**

Reason for this decision (required, recorded in the chronology)

Record decision

Parent notification on a safeguarding case: never automatic, always with a reason.

One access module

Decides who may see wellbeing and safeguarding cases. They never appear in search, dashboards, analytics or portals unless it allows it.

Every view audited

Opening a sensitive record writes an audit event. The app cannot edit or delete audit entries.

Families never told automatically

On wellbeing and safeguarding cases, notifying parents is a staff decision with a recorded reason.

AI drafts, people decide

Sensitive data is never sent to AI unless the school enables it. Sensitive AI output is always a draft for approval.

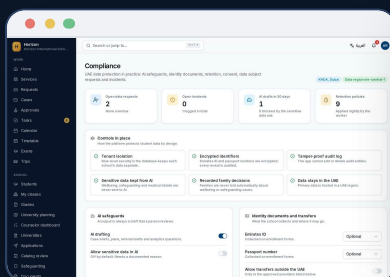

Tenant isolation

Each school's data is isolated with row-level security in the database. The app runs as a restricted role.

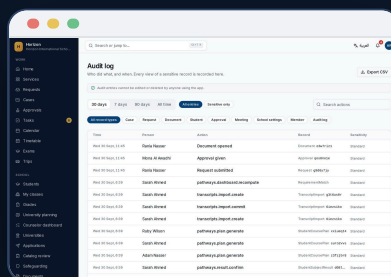

Protected identity data

Emirates ID and passport numbers are encrypted and masked; every reveal is permission-checked and audited.

The compliance page schools ask for in every demo.

The audit log: who did what, and when.

UAE frameworks supported

Federal Decree-Law No. 45 of 2021 (PDPL): purposes and consent, data subject requests, retention, incident log and cross-border transfer controls. Federal Law No. 3 of 2016 (Wadeema's Law): reporting duties through the safeguarding module and external referral log. Regulator set per school: KHDA, ADEK, SPEA or Ministry of Education.

University guidance grounded in official pages

Every entry requirement comes from the university's official page, word for word, with the source link and the date it was checked. Horizon checks each student's courses and grades against it, line by line.

The screenshot shows the 'University planning' page for the University of Manchester. It displays the course 'BEng Electrical and Electronic Engineering' and its duration '3 years - taught in English'. Key information includes tuition fees of 'About 30,000 GBP' and intake years '2027 entry' and '2028 entry'. A 'Source' link points to the official admissions page. The 'Your requirement check' section lists requirements for 'Everyone' (English: IELTS 6) and 'American (Honors and AP)' (GPA of at least 3.0). It also shows 'Other curricula' requirements for British (GCSE and A-Level), IB Diploma, and Mathematics.

1 Word for word

Each requirement line carries the exact wording from the university's own admissions page, a link to the source and the date it was checked.

2 Rules decide, never AI

Each requirement is met, not met or unknown, with the course that meets it and whether the grade is predicted or planned.

3 Every curriculum side by side

British, IB, American, UAE MoE, Indian and Tawjihi requirements for the same programme, each marked From the official page.

4 Course plans and what-if

A Grade 9 to 12 course plan approved by the counselor, and what-if to see which programmes move when a class or grade changes.

Year-on-year changes flagged for review

Each university's current page is compared with its archived copy from last year, and official pages are re-checked weekly. Real examples: Birmingham Medicine moved from A*AA to AAA, Durham Law from IB 38 to 37 and ANU Computing from IB 30 to 31. Each change waits for staff review with the before, the after and the students affected; students and parents are never notified automatically.

The screenshot shows the 'Catalog review' interface. It includes tabs for 'Review queue', 'Sources', 'Change monitor', and 'US data'. The 'Requirement changes' section lists differences between published versions. Two examples are shown: 'Law LLB (Hons) (M101)' at Durham University, where IB points were lowered from 38 to 37, and 'Medicine and Surgery MBChB' at the University of Birmingham, where the grade profile was lowered from A*AA to AAA. Both entries have 'Mark reviewed' and 'Dismiss' buttons.

and more

Live in a day, set up by the school itself

Self-serve sign-up

School names in English and Arabic, emirate and curricula. A complete working school is created instantly: roles, services, forms, workflows, letters and a calendar with UAE holidays.

Import center

Staff, students and guardians, classes, enrollments and subject choices from CSV or Excel, with templates in English and Arabic.

Google or Microsoft sign-in

Email and password always, plus Google or Microsoft 365 when the school turns them on.

Setup wizard and brand

Seven short steps, skip and resume any time. Upload the logo and choose colors; the whole app changes live.

Checked before saving

Every row is previewed with its errors first. Re-imports update and never duplicate, staff re-imports never remove roles, and every import is kept in the history.

Family join code

A printable poster with a QR code. Parents verify each child with student number and date of birth.

staff-horizon.csv 5 rows: 3 ready, 2 with errors. 2 new, 1 to update, 0 unchanged. Show only rows with errors

Row	Name	Email	Roles	Department and title	Subjects and grades	Check
2	Hana Karimi	hana.karimi@horizon.example	Teacher	Mathematics Mathematics Teacher	MATH 9-12	New
3	Yousef Darwish	yousef.darwish@horizon.example	Teacher Head of Department	Science Head of Science	PHYS CHEM 10-12	New
4	Daniel Carter	daniel.carter@horizon.example	Teacher	Science Physics Teacher and Homeroom Tutor	PHYS 9	Update Changes: job title
5	Maya Haddad	maya.haddad@	Teacher	English English Teacher	ENG 6-8	Email: not a valid email address
6	Tariq Nabil	tariq.nabil@horizon.example	Librarian Wizard	Humanities Librarian		Roles: role not found (item 1 in the list)

☐ Send each new person an invitation email now (people who already have an open invitation are not emailed again)

Enrollment Confirmation Letter
خطاب تأكيد الالتحاق

To: To whom it may concern

This is to confirm that Adam Hassan, date of birth 2 January 2012, Emirates national, student number 000-000000, International Student, International School Dubai in Grade 9 for the academic year 2023-2024.

The student has been enrolled with us since 25 August 2023 and is in good standing.

This letter is issued at the request of the family for the purpose of an embassy application and cannot be relied on for the school's internal records.

Place At Head of Department
Signature: Head of Department

موقع مدير المدرسة
التوقيع: مدير المدرسة

Your school's identity on every document

Letters, report cards, exam timetables and the family join poster carry the school's own logo, name, address and seal.

The import preview: new, updated and invalid rows, before anything is saved.

PILOT PROPOSAL

A one-term pilot with five launch services

WEEK 1

Setup day

90-minute guided call: profile, calendar, imports, roles, DSL and deputy.

WEEKS 2 TO 3

Staff go live

Documents, absences, parent meetings, teacher referrals, safeguarding concerns.

WEEKS 4 TO 12

Families join

Join code poster and letter. University plans for one grade.

END OF TERM

Review together

Measure against agreed goals and decide on rollout.

Success measures agreed up front

- ✓ Days to issue an official letter
- ✓ Share of requests closed on time
- ✓ Time for a concern to reach the DSL
- ✓ Share of families signed in

See it through the eyes of your community

Step into the demo school as a student, parent, teacher, counselor, safeguarding lead or principal, in English or Arabic.

NEXT STEPS

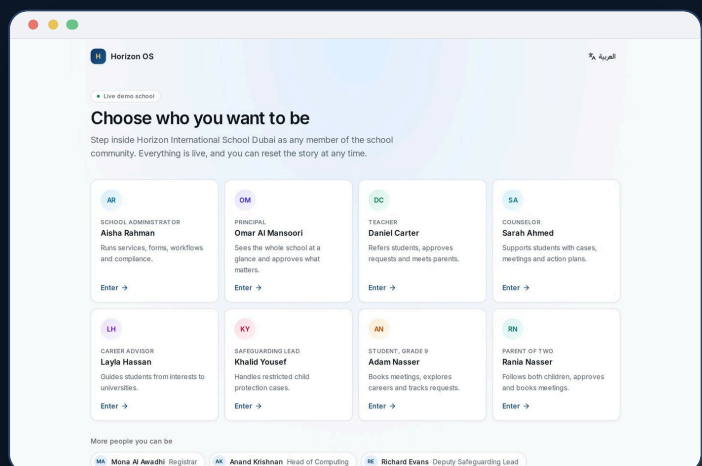

- 1 Today**
Choose a pilot lead and confirm your DSL and deputy.
- 2 This week**
Send the data request: school details, logo and colors, staff list, students and guardians, term dates.
- 3 Next week**
90-minute setup call, then go live with five launch services.

LIGHT TO RUN

- ✓ No custom build per school
- ✓ School administrators change everything themselves
- ✓ University catalog refreshes itself weekly
- ✓ Every page checked daily, for every role, in both languages
